Classic Tubular Bath Waste Assembly

Now with flexible tubing for easier alignment

AB&A's Flexible Classic bath waste and overflow combines all the great features of the Classic with flexible PVC tubing for easy alignment when the rough-in plumbing doesn't align with the tub holes. The overflow elbow is solvent welded at the factory leaving the tee end to be cut in the field for an exact fit.

AB&A's new and improved, patent pending, Classic waste and overflow system keeps getting better. The newly designed, high-flow capacity Classic overflow cover plate is slotted to provide greater drainage through the tub overflow. Installers can easily secure the overflow elbow, gasket, and cover plate to the tub without the use of a screwdriver or screws. Test plugs and caps are always included with the Classic waste and overflow system.

Available in a variety of tub stopper designs and finishes, the Classic is the choice for quick, easy installation and testing.

FINISHES AVAILABLE

● Chrome

● Oil-Rubbed Bronze

● Venetian Bronze

● Satin Nickel

CLASSIC FLEX BATH WASTE AND OVERFLOW WITH PIPE, TEE, & TEST CAP
